Shochu //

Shochu was born of simple pot still technology imported from Korea and Taiwan some 700 years ago. Once thought of as a drink for the coal miners and farmers of the southern Japan, it is becoming increasingly popular in its native Japan and around the world. A reflection of the grain or starch it is made from and the same koji that makes sake possible, shochu is wonderfully funky and grainy at its best it comes to life on the rocks with hearty grilled meats. ROKA AKOR and ROKA BAR also use shochu as a vehicle to explore some exciting options for infusions. An exciting component of our beverage "laboratory," guests can expect to see several house infused versions available at all times.

Dassai Beyond Junmai Daiginjo, Yamaguchi Prefecture (46) Smooth, Clean, Layered, Elegant	1050 720ml

It can truly be said that DASSAI Beyond was more than a decade-in-the-making. Crafting a sake of such transcendent excellence meant going beyond polishing numbers and the provenance of rice and water. It demanded going beyond normal flavor profiles to coax levels of depth, complexity and smoothness from rice that had never been tasted before in a sake. And it required the artisans behind its creation to go beyond the known limits of their sake-brewing art. The superlative and secretive standards for DASSAI Beyond keep production extremely limited and each bottle is a rarity.
